ME Conferences organized “2nd International Conference on Nutrition, Food Science and Technology” which was held during April 08-09, 2019 Abu Dhabi, UAE. With the huge response from Food Technology Congress 2019 we are overwhelmed to organize the “3rd International Conference on Nutrition, Food Science and Technology” held during March 16-17, 2020 in Dubai, UAE. The major theme of the Food Technology Congress 2020 is “Connecting Global Leaders, Innovators and Investors to Map out the Future of Food”. This includes keynote presentations, Oral talks, Poster presentations, Video presentation, and Exhibitions.

Encouraged with the success of previous series of conferences, we are delighted to announce our upcoming conference “4th International Conference on Nutrition, Food Science and Technology” which is going to be held in Istanbul, Turkey during May 24-25, 2021. The conference runs with the theme “Good food leads to a healthy life”.

Reference:

1. “Nutrition and food science with modern techniques is the major industry for the development of health” aspects by Muhammad Usman from General of Agricultural Research System, Pakistan.
