

2020 Announcement of “Accelerating Innovations & fostering advances in Plant Genomics”

Dr. Hadi Nural

Mediface Medical Center, Turkey, E-mail: hadinural@hotmail.com

With the prosperous completion of our “**World Conference on Plant Genomics**” which was held in Rotterdam, Netherlands. We are glad to bring it back with a much refreshed and newer version of the “**International Conference on Plant Genomics**” scheduled for **June 27-28 in Madrid, Spain.**

Organizing Committee members(OCM) for Plant Genomics 2019 are Dr. Paul Yaw Adjei, University in Kumasi, Ghana and Dr. Adi Bem alexander, Federal University Dutsinma, Nigeria

We are contended to various delegate experts, company representatives and other eminent personalities who supported the conference by facilitating active discussion forums. As per the requests from our previous participants we are glad to introduce the **International Conference on Plant Genomics. Bringing the series back with, Plant Genomics 2020.**

The theme for [Plant Genomics 2020](#) is: *Reviving new aspects in Plant Genomics*

We hereby put forth [Plant Genomics 2020](#) as an interdisciplinary program that meets the demand for education and development in the fields of Plant Physiology.

The [Plant Genomics 2020](#) deliberations focus on Plant Physiology and it's sub-specialties and is designed to provide a platform for discussion and networking as well as to share new ideas, advancements and research related to the field. This Academic event includes imperative Keynote forums, plenary presentations, poster presentations, workshops, exhibitions and more. By participating in forums, sharing research and collaborating, the research community will be much benefited.

We welcome you all to connect, contribute and collaborate with Physicians and researchers/surgeons from around the globe.
