The "6th Annual congress on Plant science" hosted by conference series with the theme, was successfully executed during October 29-30, 2018 Valencia, Spain. The conference offered a unique opportunity to investigators across the globe in order to meet, explore, network and perceive new scientific innovations. The conference received commendable applause and active participation was received from the Editorial Board Members of OMICS Group Journals as well as from the global scientists, Professors, Academicians, Researcher Scholars and students from diverse fields of Plant Science and Bio Technology.

The conference commenced with the presence of worthy Keynote forum and among the notable ones, few are listed below.

- Identification of candidate genes involved in Arabidopsis responses to abiotic and biotic stresses using a transcriptomic approach

(Synan F Abu Qamar), United Arab Emirates University, UAE

- Do riparian species like Nitrogen

(Eugenija Kupcinskiene Habil), Vytauto Didžiojo Universitetas, Lithuania

Conference series is organizing "7th Annual congress on Plant Science and Molecular Biology" The conference is going to cover the entire field related to Plant Science and Molecular Biology, latest research and findings. The Conference will provide a platform where research scholars and students will be able to gain knowledge about new, innovative research and findings from the eminent Scientist, Researchers and Professors.

The conference highlights of Plant science and Molecular Biology 2020 are as follows:

Plant Physiology Conferences | Plant Science Meetings | Global Plant Science Conferences | Plant Science conference | Global Summit on Plant Science | Molecular Biology | Molecular Biology conference | Plant Science and Molecular Biology Conference 2020 | Molecular Biology Summit 2020
