

## 2020 Conference Announcement - 13th International Conference on Stem Cell and Regenerative Medicine

**Dr. Purwati**

University Airlangga, Indonesia Email: [dr.purwati@gmail.com](mailto:dr.purwati@gmail.com)

[Stem Cell](#) and Regenerative Medicine is a trend in Biomedical Science. Conference in Stem Cells and Regenerative Medicine will give a brief idea about stem cells, regenerative medicine and its applications and about the ongoing researches. Stem Cells are the specialized cells which have the ability to replace the damaged or lost cells or tissues. [Regenerative Medicine](#) or Stem Cell Therapy is the ongoing research in the field of stem cell biology. The stem cell biology and the gene therapy are setting trends in the health and medicine research with the use of scaffolds and 3D bio printing.

Regenerative Medicine is a part of tissue engineering which brings advancement in stem cell biology. It involves the use of extracellular matrix, cord blood, mesenchymal stem cells for stem cell research and development in medicine sector to cure [neurological deficits](#), liver diseases, immune system diseases, diabetes, lung injury, kidney injury, and leukaemia.

Stem Cell Research with the use of Mesenchymal Stem Cell Transplants is a clinical trial method. The present Mesenchymal Stem Cell Therapy is in vivo which focused on disorders associated with GvHD, cardiologic, neural, and orthopaedic, carcinogenic, etc. this therapy is termed as the [Advanced Therapy](#) in Medicinal Products (ATMP).

In the 12th Annual Conference on Stem Cell and Regenerative Medicine, 2019 the researchers had given their lectures as follows:

Purwati, from Universitas Airlangga, Indonesia explains Metabolite stem cell for skin rejuvenation and Omid Panahi, from Yeditepe University, Turkey says that Stem cells and modern dentistry

We are pleased to organize the next conference on Stem Cell and Regenerative Medicine is going to be the 13th International Conference - Stem cell and Regenerative Medicine with the Theme – 'Stem Cells: Innovations and Applications' will held in April 20-21, 2020 in Kuala Lumpur, Malaysia.

### Organising Committee Members:

**Purwati**, University Airlangga

**Omid Panahi**, Yeditepe University, Turkey
