Euros icon is the longest running independent life science events company with a predominantly academic client base. Our multiprofessional and multispecialty approach creates a unique experience that cannot be found with a specialist society or commercially.

World renowned scientists, Noble laureates and scholars in their respective fields grace our events as keynote speakers, panel experts, and organizing committee members. Our speakers gain global visibility and recognition as we take them straight to the audience through live streaming that broadcasts your spoken words all over the globe instantaneously.

With its world class state of innovation and information knowhow, our conferences facilitate knowledge dissemination through round table discussions, debates, workshops and poster presentations. Corporate entities, academic and research institutions benefit from the dignitaries of world class, including CEOs and policy makers and can ripe the benefits through B2B meetings, networking, product launching and promotion.

It is our great pleasure to invite you to participate in the "14th Edition of International Conference on Advances in Tissue Engineering and Biomaterials Science" (Tissue Science 2020), which will be on June 22-23, 2020 | Rome, Italy.

Theme: Redefining Health Care through Tissue Engineering

Tissue Science Conference 2020

The main objective of the conference is to bring together Tissue Science Engineers, Scientists and its related Professionals to exchange their ideas and knowledge between the different disciplines for facilitating research and clinical interdisciplinary collaborations.

The conference themes will include the following topics:

Tissue Engineering, Regenerative Medicine, Regenerative Treatment Model, Soft Tissue Replacement, Cell Therapy, Stem Cell Bioprocessing, Immunomodulation Therapy, Regenerative Rehabilitation, Anti-Aging Medicine, Biomedicine, Biomedical Engineering Techniques, Biomaterials, Artificial Organ, Applications of Tissue Engineering, Ethical Challenge and Clinical Issues.

Venue and its Advantages

Rome is the capital city and a special commune of Italy. Rome also serves as the capital of the Lazio region. It is the fourth most populous city in the European Union by population within city limits and Centre of the Metropolitan City. Rome today is one of the most important tourist destinations of the world, due to the incalculable immensity of its archaeological and artistic treasures as well as for the charm of its unique traditions, the beauty of its panoramic views, and the majesty of its magnificent "villas". Rome is the third most visited city in

the EU, after London and Paris, and receives an average of 7–10 million tourists a year, which sometimes doubles on holy years.

Press Release

Name of the Conference:

[Tissue Science Conference 2020](#) | 14th Edition of International Conference on Advances in Tissue Engineering and Biomaterials Science | June 22-23, 2020 | Rome | Italy

Major Keywords:

Tissue Science Conferences | Tissue Science Conference 2020 | Tissue Science Congress | Vascular Surgery Congress 2020 | Tissue Science Meetings | Top Tissue Science Events

Information about the previous conference:

On completion of successfully organizing 2019 conference with prominent scientists and keynote speakers. The conference was a huge success which unites a one of a kind and worldwide blend of substantial and medium Tissue Sciences and symptomatic or organizations, leading universities and clinical research companies making the meeting an ideal stage to share understanding, encourage coordinated efforts crosswise over industry and the scholarly community, and assess rising advancements over the globe.

Details about the conference:

The Tissue Science Conference 2020 aims in bringing Tissue Science Researchers, Exhibitors together from different parts of the world. International Conference on Tissue Engineering and Bio Materials Sciences aims to create a platform to have a knowledgeable discussion. The Tissue Science Conference has [KEYNOTE SESSIONS](#), [HANDS ON WORKSHOP](#), [SYMPOSIUMS](#), [SPECIAL SESSION](#), [SPEAKERS](#), and [POSTER PRESENTATIONS](#).

The session presented at the conference have research value and renders a great knowledge related to the field of Tissue Science. Meet noteworthy Scientists, Engineers, Researchers and Clinicians. So come and join leading experts and allied professionals from June 22-23, 2019 at Rome, Italy to keep up with the rapidly accelerating pace of change that is already having an impact on the field of Tissue Engineering and Bio Material Sciences and will continue to n the future.

Conference Highlights:

- Tissue Engineering
- Regenerative Medicine
- Regenerative Treatment Model
- Soft Tissue Replacement
- Cell Therapy
- Stem Cell Bioprocessing
- Immunomodulation Therapy
- Regenerative Rehabilitation
- Anti-Aging Medicine
- Biomedicine
- Biomedical Engineering Techniques
- Biomaterials
- Artificial Organ
- Applications of Tissue Engineering
- Ethical Challenge and Clinical Issues
