

21st Global Nephrologists Annual Meeting scheduled on June 10-11, 2020 at Frankfurt, Germany

Gabriel Demetrio Dimitrov

University of Milan, Italy. E-mail: gdimitrov@libero.it

Nephrology is a specialty of internal medicine that focuses mainly on the treatment of diseases that affect the kidneys. Nephrology also studies about the systemic conditions that affect the kidneys, such as autoimmune disease and diabetes; and also systemic diseases that occur as a result of kidney disease, such as hypertension and renal osteodystrophy. A physician who has undertaken additional training and become certified in the subject of nephrology is called a nephrologist.

Nephrologist 2019 witnessed an amalgamation of peerless speakers who enlightened the crowd with their knowledge and confabulated on various new-fangled topics related to the field of Nephrology and Therapeutics. Gabriel Demetrio Dimitrov, University of Milan, Italy presented a Keynote speech on "Arterial stiffness and subendocardial viability ratio in patients with peripheral artery disease" and Yong Dai, Jinan University, China "Diversity and clonality of B-cell and T-cell receptors in IgA nephropathy".

With the grand success of Nephrologists 2019, we are glad to announce our next upcoming conference Nephrologists 2020 at Frankfurt, Germany on June 10-11, 2020. The conference will serve as a platform to bring together leading Nephrologists with different specialties such as Nephrology etc. Nephrologists Congress will discuss on the topics such as Clinical Nephrology, Pediatric Nephrology, Dialysis, Urological studies, Kidney Diseases, Renal Nutrition, Glomerular Diseases.

According to recent statistics report, approximately 15% of total population is suffering from Chronic Kidney Disease complaints and millions of others are at augmented risk. The numbers of Kidney transplantations are apparently very high and in the year of 2019 alone, there are about 121678 kidney transplantations. Due to the hasty increase for the risk of renal disorders, Nephrology Conference aims to decrease the frequency rate of kidney disease through its international conference on nephrology.

Global Nephrology Conferences going to be held during January, 2020 to December, 2020 at various cities in Europe (London, Barcelona, Madrid, Valencia, Rome, Milan, Berlin, Frankfurt, Vienna, Zurich, Dublin, Edinburgh.... And Many More..!!!
