

29th International Conference on Cardiology and Cardiovascular Diseases

KV Reddy

SDGs Professional (Research) Consultant, Plot No: 59, Anithanagar, LB Nagar, Hyderabad, India, E-mail: kvnreddy102@gmail.com

Supporting journal: Journal of Heart lung and Circulation ; Journal of Cardiovascular diseases and diagnosis

After gaining a very favourable outcome out of the past conference in the Cardiology Conference series, CPD accredited- **29th International Conference on Cardiology and Cardiovascular Disease** Allied Academies takes all the pride in announcing the Upcoming Conference in the successful series of Cardiology Conferences.

Cardio Care 2020- The two-day gathering of world-renowned researchers, surgeons, experts and practitioners of Cardiology reconstructive and Cardiac surgery field is scheduled on **March 23-24, 2020 Osaka, Japan** The International Conference on 29th International Conference on Cardiology and Cardiovascular Diseases going to happen on the March 23-24, 2020 Osaka, Japan . Cardio Care 2020 desires at integrating all the renowned Cardiologist, Researchers and Doctors, Medical professionals, Fellowship holders, Residents, Pharmaceutical industries and Healthcare industries in the field of **Cardiology** The objective of this conference is to gather like-minded coteries to facilitate the flow of ideas, thoughts, suggestions and motivations

This **Cardiology and Cardiovascular Disease** runs on the theme' **Outreaching the Rhythm for a Healthy Heart**, which concedes that **Cardio Care 2020** will act as a platform for exploring the novelties in the field of **Cardiology**. In this gathering, the breakthroughs related to Cardiac surgery are about to be deliberated and cognizance of the treatments is to be shared.

Cardio Care 2020 will serve a great opportunity for the delegates of universities and Institutions as it allows people to interrelate with world-class Cosmetologists, Dermatologists and Businesspersons.

Cardio Care 2020 will not simply be a stage estimation in a gigantic event of people, yet additionally, it's an attempt to spread research advances in the ever evolving-field of Cardiac surgery and Cardiology and Cardiovascular Disease The scientific event focuses on this [Cardiology Summit](#) on the research which is currently being undertaken in the field of Cosmetic Surgery and cosmetology including Hyper rheumatic heart disease Inflammatory heart disease, Cardiac arrhythmias, Cerebrovascular disease, Coronary artery disease, Aneurysm Cardiomyopathy

Cardio Care 2020 Conference embraces Keynote speeches, Oral, Poster and Video Presentations. The fostered participants can confirm their participation by registering in **Cardio Care 2020** . All the accepted abstracts will be published in the supporting journals like : Journal of Heart lung and Circulation ; Journal of Cardiovascular diseases and diagnosis This conference will help the attendees in building a strong professional network by facilitating a fresh perspective of ideas, knowledge in recent advancements, one-on-one engagements and streamlining of techniques **Cardiology and Cardiovascular Disease** is organized under the belief that one-on-one interactions and discussions open door to innovations and inventions. We are proud facilitators of such an opportunity.

World Cardiology Meeting is a two-day programme of presentations, panel discussions and interactive dialogue at the conference on leading the way in the research field of cardiology, which is going to be held during **March 23-24, 2020 at Osaka, Japan**

Theme: *Outreaching the Rhythm for a healthy heart*

The organizing committee is gearing up for an exciting and informative conference program including plenary lectures, symposia, workshops on a variety of topics, poster presentations and various programs for participants from all over the globe. We invite you to join us at the World Heart Congress, where you will be sure to have a meaningful experience with scholars from around the world. All Organizing Committee members of the **29th International Conference on Cardiology**

and Cardiovascular Diseases look forward to meet you in **Osaka, Japan**.

For more details please visit: <https://cardiocare.insightconferences.com/>

Cardio Care 2020 provides a comprehensive introduction to diseases of the cardiovascular system, how they present, how they are diagnosed, how they are prevented, and how they are treated. Students learn to identify the integral links between anatomy, physiology, pathology, and basic sciences with clinical medicine and other essential aspects of patient care for ambulatory and hospitalized patients who have cardiovascular disorders. They are prevented, and how they are treated. We invite you to join us at the “**29th International Conference on Cardiology and Cardiovascular Diseases**”, where you will be sure to have a meaningful experience with scholars from around the world.

Growth of Cardiology Market: -

The global medicine market includes interventional, internal organ devices. The worldwide interventional medicine devices market has been expected to understand \$25.16 billion by 2020. On the opposite hand, the Asia Pacific market is anticipated to travel on top of \$6.4 billion by 2022, growing at a moneymaking rate over the forecast amount. The worldwide marketplace for vas surgical devices employed in the hospital room was valued regarding \$31 billion in 2010. By 2015, this market ranged virtually \$48 billion at a CAGR of 8.7%. By 2017, it's calculable to succeed in a value of \$70. The expansion is attributed to the presence of enormous initial opportunities, rising tending expense, disorder incidence rate, and income levels. North America interventional medicine devices market was the biggest with revenue share calculable at over 35.0% in 2013. The report covers three major segments of cardiology surgery, devices and drugs market which includes surgeries, devices and drugs. Cardiovascular diseases are the number one cause of death globally. Some of the major CVDs include coronary heart diseases, stroke, hypertensive heart diseases, inflammatory heart diseases, rheumatoid heart diseases and others. Coronary heart diseases are the leading

cause of death followed by strokes. The prevalence and incidence rate of heart diseases are on a rise; especially in major emerging countries such as India, China and Japan. The market of cardiology surgery, devices and drugs are also on a rise.

So, medicine conferences are going to be a good success today because the awareness for the treatment of vas diseases is incredibly necessary among the individuals and everyone can come back to grasp regarding the new researches occurring and inventions within the field of medicine.

Importance and Scope

29th International Conference on Cardiology and Cardiovascular Diseases will be the best platform for all the scientists, cardiologists, oncologists, electro physiologists, surgeons, nurses, research scholars, students who are working in this field to exchange their knowledge related to [Cardiology](#) and [Cardiac Surgery](#). This international event is an effort to find an alternative for invasive imaging technique against heart diseases and heart failure conditions in adults & children.

The world is becoming increasingly vulnerable to public health challenges and risks for cardiac diseases bursts. And the Conference provides a unique opportunity for Academic leaders, educators and, clinicians as well as for experts and scholars of higher education from all over the world to con-vane and share novel ideas on crucial issues and trends in the area of cardiology. From prevention through optimal care and, finally, to targeted treatment modes and rehabilitation the whole range of [cardiovascular disease](#) will be presented with world-class faculty, researchers, and mentors as well as healthcare clinical professionals.

The aim of this conference is stimulating new ideas for treatment and analyze the current market for the future direction of cardiovascular drugs, devices, and diagnostics, with an emphasis on newer products that will be beneficial across the spectrum of cardiology. Lectures will provide a comprehensive state-of-the-art update of the clinical uses of various techniques in the diagnosis, prognosis, and management of common heart diseases.

In Europe:

The European market for interventional cardiology is leading towards maturity, mostly in Western Europe. Although the economic slowdown had a negative impact on revenues in 2012, it is expected that expanding applications of interventional systems and the popularization of hybrid solutions will drive market growth over the 2013-2017 period.

Market Trends in Europe [Interventional Cardiology](#), finds that the market earned approximately \$336.7 million in 2012 and estimates this to reach \$352.6

million in 2016. Novel applications, the demand for hybrid solutions and the need for new systems in Eastern Europe will fuel market growth.

In America:

Geographically, North America has the highest market share in 2013 due to high awareness about the heart diseases. According to the [Centers for Disease Control and Prevention](#) (CDC), every year about 610,000 people in America die of heart diseases. Likewise, annually 735,000 Americans are victims of heart attacks. Thus, increasing of heart attacks in North America would increase the demand of [cardiovascular drugs](#). However, Asia-Pacific region is expected to showcase the fastest growth rate in the future due to rise in aging population, increasing awareness and in other factors.

In Middle East:

Countries in Middle East and Africa bear a heavy burden from Ischemic heart disease. According to, Dubai Health Authority, Heart disease is the cause for every 3 in 10 deaths in the UAE. Huge funding in R&D and various initiatives by government is driving the growth for Ischemic heart Disease market in Middle East and Africa.

Middle-East and Africa [Ischemic heart Disease](#) market is growing steadily. The market is growing at the CAGR of 3.1% and expected to reach to US\$ 2.84 billion by 2022.

In Asia:

Around 5 million Americans suffer from heart valve disease every year. Heart disease is considered as one of the leading causes of mortality. Thus, substantial rise in burden of heart valve disease is the major growth driver for the heart valve device market. Geographically, this report split Asia-Pacific into several key Regions, with sales (MT), revenue (Million USD), and market share and growth rate of Ischemic [Heart Disease Drugs](#) for these regions, from 2012 to 2022.

Cardiology universities:

- Harvard University, USA
- Johns Hopkins University, USA
- Swansea University, UK
- Kawasaki Medical University, Japan
- Oxford University, UK
- Cambridge University, UK
- University of Toronto, Canada
- Avalon medical University, USA
- Imperial college, London
- New York university

Globally:

- University of Louisville, Kentucky
- University of Chicago, Chicago
- Stanford University Medical Center, California
- Duke University Hospital, Durham
- University of Southern California, Los Angeles
- Kasturba Medical College, India
- University in Little Rock, Arkansas
- Thomas Jefferson University, Philadelphia
- Ohio state medical Centre, Columbus

Societies Associated with Cardiology

- London cardiovascular Society
- European Heart Rhythm Association
- European Association of Cardiovascular Imaging
- American Cardiology Association
- European Association for Cardiovascular Prevention & Rehabilitation
- Medical Association of Europe
- Acute Cardiovascular Care Association
- World Heart Federation
- European Society of Cardiology
- World Heart Failure Society
- British Cardiovascular Society
- British Association for Cardiovascular Prevention and Rehabilitation
- Association of European Paediatric and Congenital Cardiology
- Heart Valve Society
- Italian Society of Cardiology and many more!
