### About Conference

We welcome all the attendees to the **2<sup>nd</sup> Experts meeting on Plant, Cellular and Molecular Biology** which will be held on **August 23-24, 2021 at Budapest, Hungary**. Cellular Biology-2021 conference based on the theme **“Advance Innovations in Plant Science for the Development of Modern Medicine”**. Cellular biology 2021 offers you a notable space opportunity to present and evaluate the latest update with a complete approach to different areas of attention. Cellular biology is Interdisciplinary research, reaching from Agricultural Science to Paleobotany and Molecular botany to Physiology.

Cellular Biology is the platform to come across for interaction with participants from the Cellular Biology associations, enthusiast leaders world's top research scholars for interaction with participants from the Cellular Biology associations, Cellular Biology societies, Horticulture, Forestry, Agriculture, Agronomy, soil sciences and plant sciences Academicians. It provides sharing and learning about the latest research on plant research and other relevant to plant science, as well as for launching new applications and technologies and the effectiveness of various regulatory programs on plant management towards Cellular Biology-2021 Conduct presentations, share knowledge, meet with current potential and eminent scientists and receive name recognition at this two days' event.

### Conference Highlights

- Plant Sciences and Research
- Plant Molecular Biology and Biochemistry
- Plant Biotechnology
- Plant Nanotechnology
- Plant Disease and Bryology
- Plant Pathology and Mycology

- Plant Hormones
- Phytochemical Analysis
- Plant Metabolic Engineering
- Plant Nutrition and Soil Science
- Plant Tissue Culture
- Plant Genetics and Genomics
- Bioinformatics in Plant Sciences

### Market Analysis

Cellular Biology-2021 welcomes all the attendees, presenters, associations and exhibitors from all over the world to Budapest, Hungary. We are delighted to invite you all to attend the **“2<sup>nd</sup> Experts meeting on Plant, Cellular and Molecular Biology”** which is going to be held on August 23-24, 2021 Budapest, Hungary. The congressional committee is gearing up for an exciting and informative conference program including keynote presentations, plenary lectures, young research forum, symposia, and workshops on informative topics, poster presentations and various program for participants from all over the world. We heartily invite participants from all over the globe to take part in Cellular Biology-2021, to share meaningful experience from scholars around the world. We look forward to seeing you in Budapest, Hungary.
