Taking into consideration about ongoing pandemic COVID- 19 outbreak all over the world, **Conference Series LLC Ltd** will be conducting **webinars**. In association with organizing committee members "**35th International Conference on Dental and Oral Health**" is scheduled to be held during **June 15-16, 2020** with the theme "*Dentistry: Vibrating Smiles for Healthy Lifestyle*". The webinar aims at providing a great scope for online interaction of dentists, prosthodontists, orthodontists, oral and maxillofacial surgeons, cosmetic dentists, pediatric dentists, researchers, academicians, industrialists, students and professors from around the globe on a single virtual platform.

Dental Management 2020 is designed to meet the needs of both experienced and new career professionals. It would be a gathering of experts online through webinar from surgery and dentistry across the globe. Online surgery conference will provide great exposure to the new findings in the field of dentistry. It is a wonderful opportunity for all to explore international networking and collaborate with world-class professionals where we wish to have your gracious presence in our platform.

Amidst present COVID-19 scenario, Conference Series LLC Ltd wishes to provide a global cybernetic platform to all its participants. Webinars are gaining popularity, as the travel restrictions across the world continues to deal with the novel coronavirus outbreak. Fortunately, modern science and technology has made it possible for Conference Series LLC Ltd to host amazing online events/webinars and to assist researchers from various fields to continue sharing their knowledge, leading to many benefits for attendees.

This platform will give you an international stage to conduct demonstrations to showcase your services and products. Dental Management 2020 will avail you a chance to distribute information and to meet potential national and international delegates. Participants can approach the invited scientists to explore the new product line possibility and exchange ideas of developing novel therapeutics. World-renowned speakers, the most recent researches, innovations, and novel updates in the field of surgery are the frontiers of this conference.
