## American Journal of Computer Science and Information Technology

## **Editorial Note**

## 3rd International Conference on Artificial Intelligence, Machine Learning and Big Data, August 17-18, 2020 Webinar

## **Editorial Note**

We had a huge success with the completion of **3rd International Conference on Artificial Intelligence**, **Machine Learning and Big Data Webinar** on August 17 -18, 2020. The significance of the meeting was achieved due to the accumulation of all the related group of spectators of research scientists to share their Knowledge, Research work, Technologies, and furthermore trade of worldwide Information towards the correct crowd at ideal time. Congress has received a generous response from all over the world. This has been organized with the aim of endorsing the development of new perceptions and ideas for investigating the high level of knowledge reached by Technologies in the field of Engineering.

The conference was organized around the theme "Latest Technologies and Advancements in Artificial Intelligence and Robotic Engineering". The congress entrenched a firm relation of future strategies in the field of Artificial Intelligence & Robotics Research.

We would like to thank all the participants and following Keynote speakers:

- Venkat Lellapalli, Mississippi State University, USA
- Daniel Jeffries, Chief Technical Evangelist, USA
- Farah Nabillah Abdul Razak, Universiti Putra Malaysia, Malaysia

We would like to thank each and every participant of AI & BIG DATA 2020 webinar to make this a huge success. And special thanks to media partners for the promotion of our event.

The **Conference Series** EEE & Engineering Conferences aim to bring together the prominent researchers academic scientists, and research scholars to exchange and share their experiences on all aspects of Engineering Research. It is conjointly a knowledge domain platform for researchers, practitioners and educators to gift and discuss the foremost recent advances, trends, and issues in addition as sensible challenges and solutions adopted in the fields of Engineering Research.
