21st Century trauma nursing is the glue that holds a patient's [health care](#) journey together. Across the entire patient experience, and wherever there is someone in need of care, nurses work tirelessly to identify and protect the needs of the individual. Beyond the time-honored reputation for compassion and dedication lies a highly specialized profession, which is constantly evolving to address the needs of society. From ensuring the most accurate diagnoses to the ongoing education of the public about critical health issues; nurses are indispensable in safeguarding public health. [Trauma Nursing](#) can be described as both an art and a science; a heart and a mind. At its heart, lies a fundamental respect for human dignity and an intuition for a patient's needs. This is supported by the mind, in the form of rigorous core learning. Due to the vast range of specialisms and complex skills in the nursing profession, each nurse will have specific strengths, passions, and expertise.

[Trauma Nursing 2020](#) is during May 18-19, 2020, Berlin, Germany aims to bring together the Professors, Researchers, scientists, business giants and technocrats to provide an international forum for the dissemination of original research results, new ideas and practical development and discover advances in [health care](#), management and education in relation to health disparities as well as a breadth of other topics.
