### EDITORIAL

I would like to give warmest thanks to the reviewers for evaluating manuscripts on behalf of the editors of Journal of Annals of Biological Sciences. The whole journal team deeply appreciates the contribution of reviewers for their valuable time and support in reviewing the assigned manuscripts, which is very helpful for revising and improving our journal, as well as the important guiding significance to our researches. Annals of Biological Sciences is an international, peer-reviewed, open access, online journal that leads the world in publishing peer-reviewed novel research, including original research, analyses, editorials, reviews and commentary on all fields of biology. The principal aim of Annals of Biological Sciences is to unite in one scientific journal of all reports in the field of biological research from numbers of different disciplines.

Reviewing is a careful work, requiring not only careful reading, analysis, and commentary but also a willingness to continue with a manuscript through multiple revisions. The Journal always appreciates the contribution of reviewer for their support towards successful publication of articles. The Journal has an Editorial tracking and submission system where reviewers can submit their comments either on the journal's unique E-mail id or directly on the submission system. Also, they can access details of their past reviews and can download a letter of acknowledgment for their records. After successful completion of review of five manuscripts, by each reviewer, submitted to the Journal the reviewers are entitled to get an official reviewer certificate from the Editorial team. Feedback from reviewers shows that most see their task as voluntary and mostly unseen work in service to the scientific community.

Journal of Annals of Biological Sciences is an international peer-reviewed journal and one of the famous journals in the field of Biological science. In 2013 first issue of the journal was published and since then it is growing continuously and publishing sufficient number of articles in each issues successfully with active support of the reviewers. The focus of this journal broadly covers: Agronomy, Anatomy, Behavior, Biochemistry, Biological Sciences, Biosciences, Agric. Engineering and Technology, Biomechanics, Psychology, Botany, Cell Biology, Clinical Sciences, Conservation and Management of Ecosystems, Crop Sciences, Cytology, Development and Differentiation, Ecology, Evolutionary biology, Food and Nutrition Sciences, Forestry, Genetics, Horticultural Sciences, Human biology and Science, Environmental Sciences, Human Exercise Physiology, Immunology, Microbiology, Biometry, Molecular Biology, Morphology, Fisheries and Aqua-Sciences, Pathology, Pest, Pharmacology and Toxicology, Physiology, Plant Breeding, Soil Sciences, Special Cultivation Technology, Stress Breeding, Taxonomy and Veterinary Sciences. The journal has archived resource of several issues from 2013 which tract the significant steps during the evolution of biological sciences.

This Journal is a quarterly journal and publishes article in English and every article is simply peer-reviewed and after acceptance is published online within 45 days. The journal appreciates the consistent support of reviewer board members who have provided peer-review of manuscript which were submitted to the Annals of Biological Sciences. They receive no remuneration for their work and still took out time from their busy schedules to read and evaluated manuscripts submitted to the Journal of Annals of Biological Sciences. We, on the behalf of whole journal team thank them for their indispensable work.
