

## Announcement of 3rd International Conference on Cloud Computing and Virtualization

Quang Ngoc Ngyun

Waseda University, Japan

With immense pleasure to inviting you to join the "[3rd International Conference on Cloud Computing and Virtualization](#)" during September 15-16, 2022, in Dubai, UAE. The conference theme is "Opportunities and Challenges of Cloud Computing". The conference will be focusing to bring together scientists at every level from basic to advanced research to understand and discuss during programmed sessions and this will be the best platform for innovation of front-line research in addressing the opportunities and challenges from academia to industry. It will also, lay a foundation by supporting the younger scientists putting an impact on their exciting research work.

[Longdom](#) organizes leading international conferences and webinars and is instrumental in bringing together experts and beginners for cooperative and effective research-oriented discussions. The goal of Longdom conferences is to bring together scientists at every level from different disciplines to understand and discuss during programmed topic sessions and informal gatherings. Longdom conferences will showcase innovative, cutting-edge research on the fundamental roles in addressing the challenges and translational research from academia to industry. All these opportunities will support professional growth of younger scientists that will promote future collaborations and enhance participation and contribution to their exciting research work. Exciting oral sessions and poster sessions will reflect broad diversity of research and will include topics driving innovative efforts and provides maximal opportunity for scientific exchange respectively. Besides invited speakers, many speaker slots are chosen from submitted abstracts to ensure good representation of those who are new to the field, young investigators, and recent results. Contact us and we'll connect you with the right subject expert from our vast network of experienced operation professionals worldwide.

[Longdom conferences](#) also, encourage bright minds with special awards and certifications which are categorized to best speaker talks, best abstract, best poster award, outstanding young researcher award and the house of delegate awards. [Cloud Computing 2022](#) scientific committee is responsible for recommending individuals for awards for consideration and approval. Winners of the awards will be considered to have presented an original scientific or technical study investigating a novel application or an innovative research approach, of a standard suitable for publication at an international level.

We encourage you to have a look on our official website and submit your speech abstract as the earliest, so that we can reserve your slot.
