Editorial

International Conference on Green Energy, Materials science & Recycling warmly welcomes each one of the individuals and supporters from worldwide to attend during November 23-24, 2022 in Rome, Italy. Green Energy 2022 will emphasize on the theme 'Emerging technologies in the arena of Green Energy for Sustainable future'. The relative novel nature of the conference is to bring the advancement in the field of utilization of natural resources. We cordially invite all the participants interested in sharing their knowledge and research in the field of renewable energy and environmental sciences.

Green Energy 2022 is the integration of new technologies in the field of environmental science to help Environmental Professionals harness the full potential of their practice. It involves the use of tools and technologies to achieve a certain degree of publicity and broaden the reach of the practice and the practitioner. The conference is a rare opportunity for all individuals of the environmental community to upgrade their know-how of the latest technologies & strategies.
