

Awards 2020 on Chemical Sciences

Christo Boyadjiev

Professor of Chemical Engineering, Department Biochemistry, Bulgarian Academy of Sciences Bulgaria, E-mail: chr.boyadjiev@gmail.com

Chemical Sciences 2020 invites the members to participate for award nomination related to the field of [Renewable energy](#) | [forensic chemistry](#) | biochemistry | [analytical chemistry](#) | environmental chemistry | biofuel refineries | Biotechnology and Biochemical Engineering | Bio Energy | physical organic chemistry | electro chemical engineering | biochemical engineering | chemical polymer technology | clinical biochemistry and immunology | crystallization | green energy | fluid mechanics | chemical synthesis & catalyst synthesis | chemical engineering | polymer science | inorganic chemistry | nanotechnology | unit operation | process design and control | radiation chemistry & radiochemistry | nano medicine | integration of life sciences and engineering.

Chemical Sciences Conference would like to bring recognition for the outstanding researchers, doctors, professors, scientists, young scientists, researchers from the developing countries and best student belonging to the field of Chemical Science. These types of awards would like to bring recognition to the particular individuals and create opportunity to build network and collaboration for their future. This award is mainly designed to recognize the dedicated individuals who has set the standard for excellence in field of conference Chemical Sciences

Award Categories

1. Outstanding Researcher/ Clinician Award

Award Criteria:

10+ Years of experience with achievements in the field of Chemical Sciences

With publications having good citations

Holding strong clinical experiences

Holding the top designations in your current working organization

Taken part in many international conferences

2. Best Discovery Award

Award Criteria:

With a minimum of 5 year experience

Can be from either Academic or Clinical Field

Has been recognized for their specific recent research outcome in the past 5 years 2015 to 2020

3. Young Scientists Award

Award Criteria:

Students who are currently pursuing Master's Degree and PhD.

Experience of less than 5 years can also send their nominations

Can be from either Academic or Clinical Field

Has been recognized for their specific recent research outcome in the past 5 years 2015 to 2020

4. Best Speaker Award

Award Criteria:

Clarity of presentation towards the achievement and contribution in the field of Chemical Sciences

Quality of abstract scientific content

Research objectives are mentioned

Factual information provided

Intelligent discussion by engaging with the audience

Handling of questions

5. Best YRF Award

Award Criteria

Students who are currently pursuing their education, Masters, PhD

Clarity of presentation

Quality of abstract scientific content in the field of Chemical Sciences

Handling of questions

6. Best Poster Award

Award Criteria

Students who are currently pursuing their education degree as Masters and Doctorate.

Quality of abstract scientific content in the field of Chemical Sciences

Visual Display of posters

Quality of the delivery during the conference

Process and Recognition

Nominations to be submitted no later than May 11th 2020 Nominees are selected by the Organizing Committee Members and reviewers of the conference

No restrictions for the number of awards allotted for each category Self nominations are also accepted

Presentation of the award will be made at the conference dates and timings will be included in the scientific program

Nominee CV

Updated CV with your achievements and research publications is to be sent after you fill the nomination form to
