

## Biomaterials and Tissue Engineering 2020 | Awards 2020

**Dr. Giuseppe Maria Izzo**, Studio Izzo of Dermatology, Italy, E-mail: [giuseppemariaizzo@gmail.com](mailto:giuseppemariaizzo@gmail.com)

### **Experts level:**

The award will be given to all the outstanding research, innovative ideas and contribution in the recent advancements of Biomaterials & Tissue Engineering genre and having experience and achievements. It is the most prestigious award of the conference. The eligibility criteria for achieving this award is that one should have minimum experience of 20+ years. You can nominate deserving researcher for the award through online.

### **Professional level:**

This is the Award for the expertise or scholarly research in Biomaterials & Tissue Engineering and speciality in research information in the field of Biomaterials & Tissue Engineering with the most applicable achievements. The experience and the high pledged knowledge have high level to the award. The experts having research knowledge of 10+ years of experience in the field of Biomaterials & Tissue Engineering with the most relevant accomplishments are eligible for this award. Mainly all the qualifications, experience and research are considered. You can assign meriting the honor through on the web.

### **Scholar level:**

The conference offers Scholar Level Award for the forthcoming researchers, specialists and experts having 10+ years research involvement in the field of Biomaterials & Tissue Engineering. Our gathering might want to give best forum to grow your innovation by sharing your exploration information. Conference forum will give platform to all introduction of the research knowledge in the conference. The presentation includes 25-30 minutes of oral talk on the scientific research topics based on the theme of the conference. You can assign meriting the honour through on the web.

### **Womens Scientist**

Our conference provides the great platform to the women researchers for giving most latest research projects with an in-depth analysis. We warmly welcome women researchers from Universities/Industries to the research understanding to who have 10+ years of research experience to join the forum. We are glad to empower our ladies researcher's members through research grants and give help to women researchers in profession improvement and research direction through our joint efforts. Women Scientist can nominate deserving candidate for the award through online.

### **Outstanding\_speaker**

This award is for recognizing the individual who will present their projects, strategies, and schemes that have been implemented to improve long-term excellence in

Biomaterials & Tissue Engineering. You can nominate deserving candidate for the award through online.

### **Best\_Keynote\_Speaker**

This award is considered according to their criteria of the conference, which should be most effective and professional to the subject and are delivered with most inspiring impact to the audiences and to improve long-term excellence in Biomaterials & Tissue Engineering. Based on all the evaluations of the committee members, the Best keynote speaker award will be given to the speaker. You can select someone for the honour through online.

### **Best\_Poster\_Presentation**

Student Poster Competition is organized at Conference, to encourage students and recent graduates to present their novel and naive research. The best is decided in the presence of the committee members like session chair, evaluation panel and the conference chair.

The Conference Series aims at setting a platform for all the budding scientists and researchers to present their real-time work and share their views and aspects related to the theme of the conference. You can nominate someone deserving of the award through online.

### **Outstanding\_thesis**

This award is for the outstanding speaker session recognizing individual speakers for Masters/Ph.D./Post Doctorate thesis work Presentation with their strategically and innovative ideas which helps in improvement in this field of Biomaterials & Tissue Engineering. Based on all best speakers, the evaluation committee and Conference Chair decides which speaker will receive the Best Outstanding speaker Award. You can select meriting the honour through online.
