

Biotechnology Past Conference Report

Ales Prokop

Emirutus Professor, Chemical and Biomolecular Engineering, Vanderbilt University, USA, Email: ales.prokop@vanderbilt.edu

24th Edition of International Conference on Biotechnology (Biotechnology congress 2019) hosted by EuroSciCon LLC took place at Paris, France during August 08-09, 2019. It was organized by EuroSciCon LLC and generous response was received from the Editorial Board Members of EuroSciCon LLC Journals as well as from eminent scientists, talented researchers and young student community. Researchers and students who attended from different parts of the world made the conference one of the most successful and productive events in 2019 from EuroSciCon LLC LTD. The two day program witnessed thought provoking keynote and plenary presentations from experts in the field of Biotechnology, highlighting the theme, "**Highlighting Latest Advancements and Applications of Biotechnology for Future Challenges**".

The meeting was carried out through various sessions, in which the discussions were held on the following major scientific tracks:

- Medical Biotechnology
- Bioproducts and BioEnergy
- Bioremediation and Biodegradation, Advancements in Biotechnology
- Bioproducts and BioEnergy
- Nanobiotechnology
- Tissue Regeneration & Therapeutics
- Medical Biotechnology
- Reproductive Biotechnology
- Plant and Agriculture Biotechnology
- Pharmaceutical Biotechnology
- Clinical Research
- Advancements in Biotechnology

The highlights of the meeting were from the eminent keynote lectures from

- Aleš Prokop, Vanderbilt University, USA
- Karin Schutze, CellTool GmbH, Germany
- Tomokatsu Hori, Moriyama Neurological Center Hospital, Japan
- Ernesto A. Chavez, Marine Sciences Research Centre in La Paz, Mexico

Biotechnology congress 2019 played an important role in promoting multidisciplinary interactions between

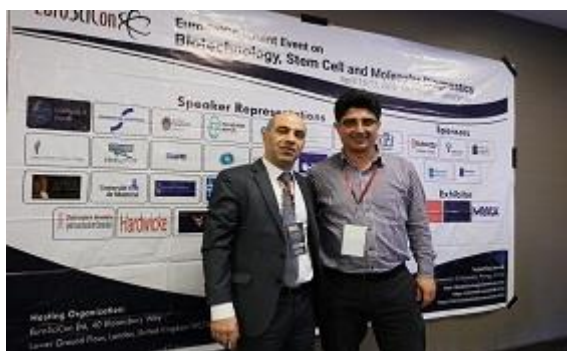

science and medicine to enhance research in Biotechnology. The program covered current and emerging research innovations in the field of Biotechnology.

The conference aims a theme: "**Highlighting Latest Advancements and Applications of Biotechnology for Future Challenges**". The meeting engrossed a section of cognizant discussions on novel subjects like Industrial biotechnology, Plant biotechnology, Agriculture biotechnology, pharmaceutical biotechnology, aid Biotechnology and different allied areas of biotechnology. The abstract and applicable data shared, will foster structure collaborations to nurture scientific accelerations.

We are appreciative to all or any our speakers for encouraging and supporting us to conduct the conference and catapulting constant to pinnacle of success.

EuroSciCon LLC, on behalf of the conference, congratulates all the participants United Nations agency place their efforts all told displays and sincerely needs them success in future endeavours. 24th Edition of International Conference on Biotechnology wouldn't have reached the top if not with the support of International, multi-professional commission and coordination of the Journal of Biotechnology & Biomaterials, Journal of Biology and drugs and Journal of Bioremediation & Biodegradation; therefore, we have a tendency to specific our deep sense of feeling.

Mark your calendars; we are hoping to see you soon!

Let us meet again @ [Biotechnology congress 2019](#)

We are obliged to the various delegates from companies and institutes who actively took part in the discussions. We sincerely thank the Organizing Committee Members and Editorial board of Biotechnology congress 2019 for their gracious presence and continuous support throughout the proceedings of this event. With the valuable feedback and generous response received from the participants of the event, EuroSciCon LLC LTD would like to announce the commencement of "24th Edition of International Conference on Biotechnology" during August 08-09, 2019 at Paris, France.
