

Challenges in Pharma Practice Field

Yavuz Selim Silay

Physician Entrepreneur & Venture Architect, E-mail: yavuzsilay@hotmail.com

Pharmacy is the branch of science with the technique of preparing drugs and dispensing. It is a health-related profession that links medical sciences with chemical sciences and aims to ensure the secure and productive use of pharmaceutical drugs. Pharmacists are the specialist on the drug therapy and are the primary health professionals who enhance the use of medication for the benefit of the patients. Pharmaceutical Sciences is a dynamic and interdisciplinary field that aims to integrate basic principles of Inorganic and organic chemistry, engineering, biochemistry, and biology to understand the optimized drug delivery to the body and translate this integrated understanding into advanced and innovative therapies against human diseases and disorders.

Pharma Middle East 2020 is an event that aims to explore the Innovative approaches for build a strong belief that all other health and medical sciences can provide the healthy circumstances by the inter-bonding with the Pharmaceutical studies and sciences scheduled to be held on November 23-24, 2020 in Istanbul, Turkey. The meet is expected to provide great scope for interaction of professionals working in the field of Pharmaceutics, Drugs, Pathology, Clinical microbiology, Clinical pharmacy, Microbiology, Public health around the globe, on a single platform.
