

## Track down the Toxins

**Nehal Afifi**

Cairo University, Egypt

Hello, we are glad you are here! If you are looking for some professional learning along with some personal leisure, we have your back!

We bring to you 4<sup>th</sup> International Conference on Toxicology and Clinical Toxicology held on February 22-23, 2021 at the ever-bustling Prague, Czech Republic. What you will get from this conference? An opportunity to showcase your research, meet experts from 22 specialties, explore the power of your profession and earn CPD while you enjoy London!

The theme of this meeting revolves around *'rack down the Toxins*. The courses of this symposia are presented in various session formats for an engaging educational experience, such as clinical case presentations, interactive workshops, poster and oral presentations, Young Research Forum and debates. Bring your vision on a global platform by sharing your research with the hundreds attending the conference. Abstract submission and Registration are open for oral presentation, poster presentation, YRF and video presentation. Notable abstracts will receive perks from the Organizing Committee.

Our Toxicology conference 2020 focuses to create a medium to connect eminent personalities from different backgrounds of toxicology and Pharmacology including Environmental , , Economic Toxicology, Pharmacognosy, Pharmaceutical microbiology, Drug discovery and much more. Also, its versatility is demonstrated by means of exhibitions and workshops by leading business heads, especially the start-ups. This not only helps to spark new research principles but also craft a grid of high profile and skilful people to shield the future.

The entire congress is planned with 17 major tracks which incorporates 50+ sub-tracks that include immunotoxicology, forensic toxicology, aquatic toxicology, veterinary toxicology, cosmetic toxicology, food toxicology, behavioral toxicology, ethno pharmacology, phytochemistry, biochemistry and much more.

The Prague toxicology conference expects to compile 150+ participants mainly from Toxicology Associations, Research Scientists, Toxicology Industries, Toxicology Researchers, Business Entrepreneurs, Environmental Academia, Ecologists, Pharmacology Training Institutes, Chemical Engineers, Environmental Engineers, Pharmacology Associations, Chemical Industries.

The scientific contributions towards our Singapore toxicology conference

are welcome in the form of oral, video, poster presentations/workshops and seminars/ networking sessions/ exhibits. These sessions are designed to evince and enhance the expertise of the attendees.

The event shall lay a platform for the interaction between specialists around the world and aims to accelerate scientific discoveries creating the conference an ideal platform to share expertise, foster collaborations across trade and world, and assess rising technologies across the world.

Researchers across the world are going to showcase their research work at this platform, wherein the students are going to learn innovative techniques from them. Moreover this platform provides a scope to share each other knowledge and execute it for the betterment of the in the near future. A novel chance for advertisers and sponsors at this International event.

This series of toxicology studies will explore a number of methodological approaches, which may be highly informative to the toxicology community, studying new approaches to developmental toxicological systems, characterization of developmental outcomes, and development of potential interventions. Are clinically relevant. Exploring both staple and state-of-the-art approaches, events focus on multiple cellular models, animal models, in vitro, approaches to assess morphological changes at the molecular level using whole embryos and specific outcome mechanisms.

We welcome you to come join the success story of this gathering. Your vision today could be a reality tomorrow. We especially encourage the students to step forth and bring their research/ideas to the global attention. 10 Keynotes, 23 sessions, 35 special speakers and many more. Join us at Prague this February! We truly believe Toxicology 2021 conference to attain superior peaks and triumph following the path of Toxicology 2020

### Objectives

- To facilitate opportunities for networking, collaboration and exchange of ideas with internationally renowned leaders in Toxicology and Pharmacology.

- To identify research and practice based innovations in optimizing Toxicology and Pharmacology research and development.
- To debate gaps and priorities for sustainable development in optimizing Toxicology and Pharmacology research and development.
- To discuss and debate the challenges and opportunities in the new era of optimizing Toxicology and Pharmacology research and development reforms.
- To identify opportunities for evidence-based practice in optimizing Toxicology and Pharmacology research and development.

#### Target Audience

- Toxicology Professionals
- Pharmacology Professionals
- PhD Scholars/ Students
- Industry professionals
- Managers / Directors /CEO's
- Toxicology Societies and the Associations
- Nobel laureates in Health Care and Medicine
- Pharmacists
- Environmental science professionals
- Genetic Professionals
- Pathology Professionals
- Forensic Professionals
- Pharmaceutical companies
- Research Institutes and members
- Supply Chain companies
- Manufacturing Companies
- Business Entrepreneurs
