

Conference Announcement on International conference on Cloud Computing and Virtualization(ICCV_2020)

Sabri Pillana

Senior Lecturer Department of Computer Science, Linnaeus University Sweden, E-mail: info@sabriplana.eu

We are pleased to welcome you to the “**International conference on Cloud Computing and Virtualization(ICCV_2020)**” after the successful completion of the series of Virtualization Congress. The congress is scheduled to take place in the beautiful city of London, UK May 21-22, 2020. This Cloud Computing 2020 conference will provide you with an exemplary research experience and huge ideas.

The perspective of the [Cloud Computing](#) Conference is to set up Cloud research to help people understand how treatment techniques have advanced and how the field has developed in recent years..

With members from around the world focused on Cloud Computing and Virtualization this is your best opportunity to reach the largest assemblage of participants from the universities, colleges, research centres, societies, institutions, labs, associations, communities and companies etc. We want to make a worldwide meet in which data between researchers from the different controls can be effectively traded. The explanation behind bringing the general population at the meetings together is to catalyse empowering trades and connections between experts in different fields, from physical science to engineering. It will make new interdisciplinary systems and permit members to trade know-how and data to accomplish speedier and better results. The field of Cloud Computing and Virtualization have not only helped the development in different fields in science and technology but also contributed towards the improvement of the quality of human life. The core aim of CLOUD COMPUTING 2020 Conference is to provide an opportunity for the delegates to meet, interact and exchange innovative ideas in the various areas of Cloud Computing and Virtual Technology . The joy of attending CLOUD COMPUTING 2020 brings with it improvement and incremental growth in your approach to do things, in the broader manner to see things in international diversity.
