

DIABETIC HERBAL MEDICINE

Dr. Md Siddiqur Rahman

Noor medical & research centre, Bahadurpur

DIABETIC HERBAL MEDICINE has been serving for a long time for human treatment. As taking treatment this natural medicine, derived from natural extracts, the human relieves from various diseases, on the other hand it has no side effect. In this stage I am addressing main point of my words. The main point of my words is "DIABETIC HERBAL MEDICINE" In different time it is found in Clinical Trial that, using Pharmacopeia Medicine to control Diabetics is negative effect for the human body (Insolence and orally) (Ref: Dhaka University Research Unite, Bangladesh). As a result the organ of human body becomes week step by step. As a result the Immunity decreases day by day, at he one stage the patent unable to control the Disbetics in spite of using Immense Insulin. It is proved, keeping clinical trial some patient whom were unable to control their Diabetics in-spite of using Insulin, while it is possible to control the diabetics treating with DIABETIC HERBAL MEDICINE and the patient felt healthy (Ref: Noor Medical & Research Center, 2010). It is proved in Research theory that, it is possible to lead a healthy life controlling the Diabetics using DIABETIC HERBAL MEDICINE without any side effect. (Ref: Noor Medical & Research Center,
