## Editorial

Welcome to **Journal of Molecular and Cellular Biochemistry**, it is a peer-reviewed journal.

In 2019 as per Google analytics there are 1,631 page views from different countries like India, Usa, Nigeria and 30+ million website visitors also successfully published articles for Volume 3 with issue 1 and 2. All the papers published in this edition underwent peer-review process involving a minimum of two reviewers comprising internal as well as external referees. This was to ensure that the quality of the papers justified the high ranking of the journal, which is renowned as a heavily-cited journal by authors and researchers around world.

Journal aims for the development of technologies for providing insights into the biochemistry, physical/organic chemistry, Single Cell Biology, Journal of Clinical & Cellular Immunology, Stem Cell Research & Therapy, Cellular and Molecular Biology, Journal of Cell Science & Therapy, Cell & Developmental Biology.

"4th International Conference on Protein Engineering" which is going to be held on July 13-14, 2020 at Helsinki, Finland. The Theme of the conference is "Commitment to Excellence in the field of Protein and Visibility issues". This conference is going to cover the entire field related to Optometry and vision science, its complication and the management and it also cover what is the innovative treatment related to their disorders.

It cover all aspects recombinant DNA technology, structural biology, and biochemical engineering. Transcription, Molecular Cloning, Polymerase Chain Reaction, Gel Electrophoresis, DNA Microarrays, Biomolecules, Phylogenetic, Immune response, Membrane Transport Cytoskeleton.

Our dedicated technical and editorial team members from different fields of Genomics and related fields ensure the quality and review standard of our publications. **IPMCB** publishes original articles, brief reports, letters to editor and reviews.

The social media can play a key role in spreading the research work increased visibility, citation and ultimately the impact of published works. We promote published articles to the social media. This will benefit the researcher to increase reputation and attendant career progression. For example, Facebook account, Twitter, LinkedIn.

We anticipate that you will find the evidence presented in this edition to be intriguing, thought-provoking and useful in reaching new milestones in your own research. Please recommend the journal to your colleagues and students to make this endeavor meaningful.

We thank the authors for agreeing to publish their papers in this Edition, and the editors and reviewers involved in the publishing process of these papers.
