

Global warming is hot let it cool!!

Ajah Uzoigwe James

Earth Environment And Climate Care Ambassadors (EECCA), Nigeria, E-mail: citycleanersinternational@gmail.com

The “6th World Conference on Climate Change” hosted by conference series with the theme, “An Insider’s View of Climate Science, Politics, and Solutions” was successfully executed during September 02-03, 2019, Berlin, Germany. The conference offered a unique opportunity to investigators across the globe in order to meet, explore, network and perceive new scientific innovations. The conference received commendable and active participation was received from the Editorial Board Members of OMICS Group Journals as well as from the global scientists, Professors, Academicians, Researcher Scholars and students from diverse fields of Medical and Healthcare.

The conference commenced with the presence of worthy Keynote forum and among the notable ones, few are listed below.

- Facilitating access, transportation and opportunities in previously inaccessible areas: The role of unmanned aerial systems in a changing climate, Peter M Leitner, National intelligence University, USA
- Recycling coal combustion by-products for minesite rehabilitation, Mehdi Azadi, The University of Queensland, Australia
- Associating Marginal Abatement Cost Curves (MACC) for greenhouse gas emissions from the agriculture of Latvia with carbon sequestration data, Kaspars Naglis-Liepa Latvia University of Life Science and Technologies, Latvia
- Long-term effects of residential rainfall levels on post heavy-rainfall waterborne disease hospitalizations in young children in New Zealand, Hakkan Lai University of Auckland, New Zealand

Past Conference OCM’s:

Name: Felix Kogan

Satellite Meteorology and Climatology Division
NOAA
USA

Name: Peter Schmitz

Institute for Hygiene and Public Health
University Bonn
Germany

Name: Grace McClain

MPH, REHS
National Association of County and City Health Officials
USA

Conference series is organizing “International Conference on Global Warming and Natural Disasters” which is going to be held on June 01-02, 2020 Sydney, Australia. The conference is going to cover the entire field related to Environment, Greenhouse gases experts, climate engineering test research and findings. The Conference will provide a platform where research scholars and students will be able to gain knowledge about new, innovative research and findings from the eminent Scientist, Researchers and Professors.

The conference highlights of GLOBAL WARMING CONGRESS 2020 are as follows:

[Global Warming](#), [Climate Change and Global Warming Evidences](#), [Pollution and Climate Change](#), [Green energy](#), [Green House Effect](#), [Geoscience](#), [Ecology and Ecosystems](#), [Carbon Cycle](#), [Effective Adaption](#), [Deforestation](#), [Natural Hazards and Disaster management](#), [Geological Disasters](#), [Hydrological Disasters](#), [Meteorological Disasters](#), [Wildfires](#),

[Space Disasters](#), [Health Disasters & Epidemics](#), [Disaster Risk Reduction](#), [Oceans and Climate Change](#), [GIS and Remote Sensing](#), [Environmental Toxicology](#), [Alarming alerts](#) and [Early warning systems](#)
