

Glycobiology & Glycochemistry 2020 scheduled at Rome, Italy during October 14-15, 2020

Dr. Alireza Heidari, Full Distinguished Professor and Academic Tenure of Chemistry & Director of the Bio-spectroscopy Core Research Laboratory at Faculty of Chemistry, California South University, Irvine, California, USA, Email: scholar.researcher.scientist@gmail.com

The [global glycobiology market](#) is expected to reach USD 1,211.4 million by 2021 from USD 649.5 million in 2016, at a CAGR of 13.3%. Glycobiology is the study of carbohydrates and carbohydrate-containing biomolecules in biological processes. This study is used in diagnostics, drug discovery research, immunology, oncology, and various other applications. Glycobiology products are widely used for analysis of cell surface markers, which can act as diagnostic or therapeutic targets. The base year considered for the study is 2015, and the forecast has been provided for the period between 2016 and 2021.

By analyzing the importance of Glycobiology & Glycochemistry, Meetings International is organizing 11th [International Conference on Glycobiology & Glycochemistry](#) (Glycobiology & Glycochemistry 2020) during October 14-15, 2020 Rome, Italy based on the theme "Global Perspectives in Glycobiology Research". Scientific sessions of [Rome Glycobiology & Glycochemistry conference](#) includes Role in human health, Synthesis and biological role of Glycans, Glycans binding protein, Glycans are essential for multicellular life, Glycans interaction of pathogenic, microbes and host cell, The importance of Glycans in therapeutics, Inflammation is initiated by Glycans, Glycochemistry in Medicine, Glycans in drug discovery & Glycomics. [Glycobiology & Glycochemistry meeting](#) embraces with Keynote Session, Oral Session, Poster Session, Young Researchers Session and Exhibitor Session.

Rome is hosting the [Glycobiology & Glycochemistry 2020](#) during October 14-15, 2020 Rome has the status of a global city. The city is one of the four fashion capitals of the world, which include Paris, London and New York. It is a sprawling, cosmopolitan city with nearly 3,000 years of globally influential art, architecture and culture on display. The special Tourist Attractions Colosseum, Roman Forum, Pantheon, Vatican City, Piazza Navona, Trevi Fountain, Galleria Borghese, Capuchin Crypt, Castel Sant'Angelo, Spanish Steps.

Glimpse of Glycobiology 2019
