

Green Chemistry Journal of Green Chemistry and Applications

Tofik Nagiev

Vice-president, Department of Physical and Colloid Chemistry, Azerbaijan National Academy of Sciences, Azerbaijan, E-mail: tnagiev@azeurotel.com

After the effective fruition of [Green Chemistry 2019](#), we are arranging the Euroscicon Conference on Green, Sustainable & Environmental Chemistry 2020 which will be held in Barcelona, Spain October 12,13 2020. The topic of the gathering is Innovative Research and Approaches in the Field of Green Chemistry.

The gathering center around the new and advance technologies in the field of Green Chemistry. Our meeting gives the best stage to the professors, student, researchers and scientists to share their knowledge in the field Green Chemistry. We are inviting the [eminent personalities](#) of the universities, professors, scientific staff and the PhD Students to present their work in our conference.

We thank every one of the media accomplices/colleague, our sorting out board of trustees and the participants who are causing this [gathering](#) to occur for their help in the meeting.

The significant features of the meeting Green Chemistry 2019 are Green Chemistry, Bio-remediation, Environmental Sustainability and Development, Environmental Engineering, Revolutionary Green solvents, Agricultural Production Systems & Agribusiness, Climate Hazards, Green Nanotechnology, Bio-remediation

The personalities who became our Organizing committee Member in Green Chemistry 2019 are listed below:

Professor Constantinos S. Psomopoulos, Piraeus University, Greece

Dr. Fausto Pedro Garcia-a Mairquez, Universidad Castilla-La Mancha, Spain

Professor G.Q.Chen, Peking University, China

Professor George Papadakis, Agricultural University of Athens, Greece

Professor Gloria Terenzi, University of Florence, Italy

Dr. Gordon Huang, University of Regina, Canada

Prof. Gustaaf Schoukens, Ghent University, Belgium

Professor Hwung-Hweng Hwung, Kung University, Taiwan

Dr. Muhammad Usman, Agricultural Research System, Pakistan

Professor Vitaliy Budarin, University of York, United Kingdom

Dr. Tofik Nagiev, Baku State University, Azerbaijan

Prof. Pierre Vogel, Swiss Institute of Technology, Switzerland

Ihesinachi A. Kalagbor, Ken Saro-Wiwa Polytechnic Bori, Nigeria

Kirsten Grubel, Ruhr-University Bochum, Germany

Alexander Buzynin, Russian Academy of Sciences, Russia

Tofik Nagiev, Baku State University, Azerbaijan
Pierre Vogel, Swiss Institute of Technology, Switzerland

Jenny Sayaka Komatsu, Universidade Federal do ABC, Brazil

Emmanuel Amuntse Yerima, University of Agriculture Makurdi, Nigeria

We are expecting more the 100 members at our next meeting on Green, Sustainable & Environmental Chemistry 2020.

The [media](#) accomplices who supporting us are Insightssuccess, Dyes & Chemical Market, Market Inspector, Bio Based Press, Cargo Connections, ChemCubed, ChemExec, ChemicalInfo, Chemical Search, Industry ARC, Nesse, Pharmaceutical-Tech.com, Project Cargo Network.

Save the dates Green, Sustainable & Environmental Chemistry 2020 will be coming soon

As we got a generally excellent reaction in Green Chemistry 2019 so we previously planned the following Euroscicon Conference on Green, Sustainable & Environmental Chemistry which will occur in Barcelona, Spain on October 12-13, 2020.

We are having an exchange with the [Noble Laureates](#) and Kavli Prize Winner and we are trusting that in 2020 we will move toward in excess of 100 members in our

meeting.

So come and join leading specialists and experts from October 12-13, 2020 in Barcelona, Spain to keep up with the rapidly accelerating pace of change that is already having an impact on the field of Green Chemistry.

With Regards,

Caroline Kelly | Program Manager

Green Chemistry 2020
