### Editorial Note

I am glad to introduce the IMEDPUB's Journal of brain, behavior and cognitive sciences (JBBCS) Volume 3 Issue 2. During the calendar year 2019, all issues of volume 2 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online.

Journal of Brain Behaviour and Cognitive Sciences aims to promote advancement of current knowledge in field of Behavioural and Clinical neuroscience. Journal of Brain, Behaviour and Cognitive Sciences aims to publish most complete and reliable source of information in the mode of original articles, review articles, case reports, short communications, Mini reviews, commentaries, etc. Submission from the related areas of neurosciences, behavioural sciences or cognitive sciences is appropriate for publication. The scope of the journal includes

Brain Mapping

Cerebral Pharmacology

Neuro imaging

Cognitive Psychology

Neurology

Psychiatry and Brain disorders.

Cognitive science is the interdisciplinary, scientific study of the mind and its processes. It examines the nature, the tasks, and the functions of cognition. Cognitive scientists study intelligence and behavior, with a focus on how nervous systems represent, process, and transform information. Mental faculties of concern to cognitive scientists include language; Cognitive science is the interdisciplinary, scientific study of the mind and its processes. It examines the nature, the tasks, and the functions of cognition. Cognitive scientists study intelligence and behavior, with a focus on how nervous systems represent, process, and transform information. Psychology is the science of mind and behavior. Psychology includes the study of conscious and unconscious phenomena, as well as feeling and thought. It is an academic discipline of immense scope. Psychologists seek an understanding of the emergent properties of brains

The previous volume 2, issue 2 various aspects were discussed by the authors from different parts of the world. In the research article, Abdelmaqsoud A, Mueller AH, Knips M, Bank P described Concomitant Chemoradiotherapy with Altered Cisplatin Regimen in Management of Locally Advanced Head and Neck Cancers [1]. In volume 2, issue 1 a case report is explained by Tawel HM, Elmehedwi IM, Ahmed FA which describes Acute Disseminated Encephalomyelitis (ADEM) in 6-year-old Libyan Boy [2]. E. Sovetkina explained the Exploring Self-Regulation in Ego Depletion and Under Relationship Power Pressure: The Example of Young Females' Oral Sex Behaviour [3].

Journal of Brain Behaviour and Cognitive Sciences stands among the best open access journals of scholarly publishing. High quality manuscript submissions are welcome from the authors to receive high impact factor and to maintain high standard of the journal.

In the calendar year 2020, Imedpub is conducting supporting conference to journal. We gladly welcome all the attendees around the world for the hearing of the foremost recent innovations and inventions in the field of Behavioural and Clinical neuroscience.

I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of JBBCS, the office bearers and staff of IPA secretariat for their support in bringing out yet another volume of JBBCS and look forward to their unrelenting support. We know how much time and effort goes into writing a good peer review, and we deeply value the input of reviewers who volunteer their time and expertise to provide essential feedback that ensures the high quality of research published in each issue of the journal. We appreciate our peer reviewers for taking the time and effort necessary to provide insightful guidance, and we try to show our appreciation to our reviewers.
