

Materials Research Announcement

Tung-Ying Hsieh

Department of Electrical Engineering, National Tsing Hua University, Hsinchu, Taiwan

Editorial

"International Conference on Materials Research & Technology" will take place in Dubai,UAE during October 17-18, 2022. Materials Technology 2022 provides the basic ideas for innovating new sustainability materials and technologies. The theme of exploring the Possibilities in the Field Of Materials Research & Technology. Material research area covers a wide range of growing markets, such as engineering resins, plastic alloys and blends, advanced batteries and fuel cells, and soon. The technological curriculum of Materials research 2022 is unprecedented, discussing structure, properties, storage and quality across the population of materials. Materials Technology 2022 brings together researchers, engineers, students, suppliers and business leaders to discuss current research and technical developments and shape the future of science and technology in materials.
