

Past Conference Report of “EuroSciCon Conference on Plant Science & Genomics”.

Lars-Peter Kamolz

Professor, Department of Surgery, Medical University of Graz, Austria, E-mail: lars-peter.kamolz@joanneum.at

EuroSciCon conference on Plant Science & genetics (Plant Science 2019) hosted by EuroSciCon came about at Paris, France throughout Oct 17-18, 2019. It absolutely was organized by EuroSciCon and generous response was received from the Editorial Board Members of EuroSciCon Journals still as from eminent scientists, proficient researchers and young student community. Researchers and students WHO attended from completely different components of the planet created the conference one among the foremost prospering and productive events in 2019 from EuroSciCon. The program witnessed thought agitating keynote and comprehensive shows from consultants within the field of Nutrition, highlight the theme, "**Transforming Future of Plant and Genomics Research**".

The conference was marked with workshops, multiple sessions, Keynote shows, panel discussions, young analysis forum and Poster sessions. We tend to received active participation from scientists, young and good researchers, business delegates and proficient student communities representing over thirty five countries, WHO have driven this event into the trail of success.

The meeting was disbursed through varied sessions, within which the discussions were endured the subsequent major scientific tracks:

Plant Science, chemical change and Natural product

- Medicinal and Aromatic Plant Sciences
- Genetically changed Organisms
- Agronomy and Agricultural analysis
- Plant artificial Biology and Plant Transcriptome
- Plant order Sciences and Sequencing
- Plant Breeding and Molecular Breeding
- Plant technology
- Plant Tissue Culture
- Plant Pathology, Micro-Biology and botany
- Plant Interactions With surroundings and alternative Organisms
- Medicinal And Aromatic Plant Sciences
- Plant Bioinformatics, genetics And information Analysis
- Plant artificial Biology And Plant Transcriptome
- Plant Pathology, Micro-Biology And botany
- Plant order Sciences And Sequencing

The conference proceedings were disbursed through varied Scientific-sessions and comprehensive lectures, of that the subsequent Speakers were highlighted as Keynote speakers:

The highlights of the meeting were eminent lectures from

Nativ Dudai, Newe Ya'ar Research Center-Agricultural Research Organization, Israel

Plant Science 2019 contends very important role in promoting multidisciplinary interactions between science and medication to reinforce analysis in biology, biological science and Agriculture Science. The program coated current and rising analysis innovations within the field of Plant Science and genetics.

We would specially impart Moderator of the conference Ranjana Bhattacharjee, International Institute of Tropical Agriculture city, African country for her contribution for the conference.

We square measure duty-bound to the assorted Speakers and

delegates from firms and institutes WHO actively took part within the discussions.

We also are duty-bound to numerous delegate consultants, company representatives and alternative eminent personalities WHO supported the conference by facilitating active discussion forums. We tend to sincerely impart the Organizing Committee Members for his or her gracious presence, support, and help towards the success of Plant Science 2019.

We sincerely impart the Organizing Committee Members and Editorial board of Plant Science 2019 for his or her gracious presence and continuous support throughout the proceedings of this event. With the precious feedback and generous response received from the participants of the event, EuroSciCon would really like to announce the commencement of "EuroSciCon conference on Plant Science & Genomics" throughout Aug 03-04, 2020 at London, UK.

Let us meet once more @ [Plant Science 2020](#)
