### Keywords:

Tissue Science Conferences, Tissue Science Conference 2019, Tissue Science Meetings, Tissue Science Events

### Tissue Engineering and Biomaterials Science 2019

The International conference on Tissue Engineering and Biomaterials Science 2019 was held on June 17-18, 2019 in London, UK with the presence of professional researchers, business delegates, scientists involved in the development of high-quality education & research in all aspects. International Conference on Advances in Tissue Engineering and Biomaterials Science 2019 witnessed an amalgamation of peerless speakers who enlightened the crowd with their knowledge and confabulated on various topics related to the field of Tissue Engineering and Biomaterials Sciences. The highly exalted conference hosted by EuroSciCon was marked with the attendance of renowned and brilliant researchers, business delegates and talented student communities representing more than 30 countries around the world. The conference has tried grounding every aspect related to Tissue Engineering and Biomaterials Sciences, covering all the possible research areas.

The conference aimed a parallel rail with theme "Explore the advances in Tissue Science and Biomaterials" with the aim to bring together a wide audience of industry, research, engineers and related professionals to educate and bring about a fruitful debate on the confined topics. The Tissue Engineering and Biomaterials Science 2019 will be a great event to network, learn and engage with professionals in the field of Tissue Engineering and Biomaterials Science. The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now is to convert the extensive program on paper to an active and a vibrant forum in person through your active participation.

Dr. Dimitrios A. Lamprou, Queens University Belfast, UK

We are thankful to all our speakers for encouraging and supporting us to conduct the conference and catapulting the same to pinnacle of success.

### Details about the conference:

The Tissue Science 2019 aims in bringing Tissue

Engineering and Biomaterials Science Researchers, Tissue Engineering and Biomaterials Science Exhibitors together from different parts of the world. International Conference on Advances in Tissue Engineering and Biomaterials Science aims to create a platform to have a knowledgeable discussion. The Tissue Science 2019 has conference has KEYNOTE SESSIONS, HANDS ON WORKSHOP, SYMPOSIUMS, SPECIAL SESSION, SPEAKERS, and POSTER PRESENTATIONS.

The session presented at the conference have research value and renders a great knowledge related to the field of Tissue Engineering and Biomaterials Sciences. Meet noteworthy Tissue Engineering and Biomaterials Sciences Researchers.

### Conference Highlights:

- Tissue Engineering
- Regenerative Medicine
- Regenerative Treatment Model
- Soft Tissue Replacement
- Cell Therapy
- Stem Cell Bioprocessing
- Immunomodulation Therapy
- Regenerative Rehabilitation
- Anti-Aging Medicine
- Biomedicine
- Biomedical Engineering Techniques
- Biomaterials
- Artificial Organ

- Applications of Tissue Engineering
- Ethical Challenge and Clinical Issues.
