Conference series Llc Ltd proud to be part of the success of the **12th Annual Conference on Stem Cell and Gene Therapy**, conducted during June 13-14, 2019 Helsinki, Finland.

The theme **New Trends and Technologies in Stem Cell Research** was big blast, which was inaugurated with an opening ceremony followed by Keynote sessions and followed by a series of lectures delivered by both Honourable Guests and members of the Keynote forum and an Exhibitor. The adepts who promoted the theme with their elegant talks as follows:

Noble Dr. Joel Isaias Osorio Garcia had presented his enlightening Keynote session on “The RegenerAge Combinatorial Bio-Interventions using Bioquantine® and allogeneic Mesenchymal Stem Cells combined with a spinal cord stimulation system in a no option patient with ASIA-A classification” on the first day.

On the second day **Honourable Dr. Gianni Pertici** had delivered his valuable Keynote talk on “Xenohybrid scaffolds for bone regeneration”

Dr. Claire Saucourt & Dr. Joel Isaias Osorio Garcia had been honoured as chairs for the sessions.

The meeting targeted at instigating the study of techniques and advancements of Stem cell regeneration globally including a variation of topics like Stem Cell Biology and [Epigenetics](#), Scaffolds and Tissue Engineering, Innovative Gene Therapeutics, Clinical Trials on Stem Cell and Gene Therapy, etc. The conference was not only lead by these topics but also it included the keynote talk, the sessions talks, presentations by the young researchers, etc.

Considering the huge response and energetic participation and support we received from the Editorial Board Members of supporting International Journals as well as from the foremost experts, investigators and developers, specialists and leaders from the fields of Stem Cell Biology, Regenerative Medicine and Genetics, were praiseworthy. The Investigators, Entrepreneurs, Young researchers had shown the attendance at the conference, that have driven the conference path to its soaring hues.

Success vibes lead to announce about the forthcoming conference **14th World Congress on Stem cell Research, Cell and Gene Therapy** that is designed in **Barcelona, Spain** during September 10-11, 2020.

The theme “**Stem Cell Research: Great avenues for healthcare and wellness entrepreneurs**” integrates trigger keynote speeches, Oral talks, Poster displays and Exhibitions.

Our supporters include organizing committee members, editorial members of International journals, its associated journals, media partners, collaborators from various Internal Organizations and our past participants include doctors, scientist, nurses, researchers, and students.

Supported journals:

1. Journal of Tissue Science & Engineering
2. Journal of [Stem cell biology](#) and transplantation
3. Journal of Genetics and Genomes

We welcome all the well-known investigators, scholars and delegate partakers to take part in this upcoming conference to witness invaluable scientific discussions and support to the future innovations in the field of Stem Cell Biology, Regenerative Medicine and Genetics.
