

Exploring the Synergistic developments Stem Cells and Biomaterials constituting a challenge for the development of effective therapies in medical science.

Fazliny Abd.Rahman

Professor, SEGi University, Malaysia E-mail: fazlinyrahman@segi.edu.my

Conference series proudly presents Euro Biomaterials 2020 which is scheduled to take place in Prague, Czech Republic during March 09-10, 2020 takes the privilege to invite all the participants, speakers, students, delegates, sponsors, exhibitors from all over the world to attend our conference

Stem Cells and Biomaterials together are multidisciplinary fields, interesting and interactive scientific sessions have been designed accordingly for this conference which includes the spreading the concepts and research advances across the globe which will have a great impact in clinical, definite and physiological parts of medicinal and designing.

These events cover wide range of critically important sessions that deals with the current research development in the field of Bio Biomaterials, Medical Science, Stem Cells, Healthcare, Engineering & technology and, about the new innovative methods which are forge by scientists to treat various diseases in easier way. These conferences act as a best platform for attendees to learn about the recent trends in Biomedical Sciences. You can refresh your insights about the current circumstance.

Our Internal medicine and Hospital management conferences mainly focus on topics such as:

Biomarkers, Regeneration & Therapeutics, Reprogramming Stem Cells: Computational Biology, Advanced Biomaterials, Genomic Editing in Stem Cells, Biophotonics and Biomedical Optics, Bioengineering, Biomaterials, 3 D Printing of Biomaterials, Stem Cell Culture and Bioprocessing, Cardiovascular Biomaterials, Tissue Engineering and Regenerative Medicine, Stem Cells, Biosensor, Dental Biomaterials, Bio-Nanomaterials, Polymer Biomaterials and Biomaterials Companies and Market Analysis

Benefits of Attending this Conference:

- Accepted Abstracts will be published in the respective journals and will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref (Free abstract publishing).
- Speaker and Abstract pages created in Google on

your name would get worldwide acknowledgment to your profile and Research.

- The Career Guidance Workshops to the Graduates, Doctorates and Post-Doctoral Fellows, Certificate Accreditation from the Organizing Committee of presentation/ participation.
- Best Poster and Young Researcher Award. Symposium by Experts Team. Best platform to develop new partnership & collaborations. Network development with both Academia and Business.

Conference Series LLC Ltd extends its warm gratitude to all the Honorable Guests and Keynote Speakers of Internal medicine and hospital management 2019:

- Jacqueline Jacques ,BioQuantique SARL ,Switzerland
- Fazliny Abd. Rahman , SEGi University ,Malaysia
- Ruijiao Dong, Imperial College London ,UK
- Siddharth Pandey, Datt Mediproducts Pvt. Ltd, India
- Matej Buzgo, Inocure s.r.o, Czech Republic
- Annett Dorner-Reisel, University of Applied Sciences Schmalkalden, Germany

For more detailed information, visit [Biomaterials](#)

Targeted Audience/Participants:

Biomedical ,biomedical engineering scientists, faculty and students, Material science scientists, faculty and students, Nanotechnology scientists, faculty and students, Biomaterial societies and associations, 3 D bioprinting companies, Medical devices manufacturing companies, Biomedical Business Entrepreneurs, Companies related to biomaterials, Stem Cell Researcher, Regenerative medicine Scientist, Emeritus and Academic professors, Cell Biologists, Genetic scientist, Tissue engineering lecturer, Stem research students, Doctors prominent in cell therapy

Abstract submission link: [Biomaterials](#)

Conference Subject Advantages: The purpose of Euro

Biomaterials 2020 is to promote interest, disseminate information, and spread data on all parts of the world related to material science and stem cell. Our central goal is to give remarkable innovations, strategies and coach future material science and stem cell scientist and progress in Stem cell and biomaterials information.

Major challenges:

- Visa Issues
- Climate Conditions
- Financial Constrains
- Travel Issues
