### Editorial Note

I feel great to concede that in the year 2019, Journal of Biology and Medical Research has published its 3<sup>rd</sup> volume within the time. IPBMR during this year has released 3 issues in a year without any lag. The primary focus of journal lies in exploring the new horizons in the field of biology and medical research.

Journal of Biology and Medical Research has provided fast-track peer-review process as like before with highly esteemed professionals and well renowned professors.

Over 35 articles were published during these years which include research, review articles, case reports, short communications etc. In an average the article acceptance or rejection will be informed to author within 21 to 30 days of initial submission whereas the preliminary quality check result will be acknowledged within 24 to 48 hours of initial submission.

Editorial and Review tracking system was introduced for easy tracking of the manuscript by author, editor as well as publisher. Authors can easily track their manuscript status through the credentials given to author at the time of submission. In this instance I would like express the token of gratitude to the reviewers who are providing the review comments on time and also the editorial assistant who is working on the journal for final editing and proofing of the manuscripts before publication and also the authors who have published along with us.

In 2019, IPBMR has opted to use social networking platform to interact with authors, reviewers and editors along with the

public and renowned professionals. Journal is having more than 500 followers in twitter where the recent issues regarding biology and medical research are posted on daily basis. For easy contact of authors IPBMR has provided with whatsapp contact so that for any queries or concerns authors can easily contact editorial assistant. Along with these we are having the LinkedIn account for Journal of Biology and Medical Research.

Moreover we would like to thank our readers for their support. We are having more than 1500 readers globally and this will be only possible with open access Journals. Our journal provides its Google analytics report and the visitor's traffic is the benchmark for the success of any scientific journal and the Journal Biology and Medical Research is constantly attracting viewers across the world. Readers from the major countries including United States, Japan, Saudi Arabia, United Kingdom, Egypt, visit our journal domain to learn about the ongoing research activities in this field.

For its upcoming volume of Journal of Biology and Medical Research, has accepting articles related to topics such as Biology and its various branches like molecular biology, theoretical biology, structural biology, marine biology etc. we will be providing the same features just like 2019 and with the authors support and reviewers work we will go further with three issues per year and with more assistance from Editorial team we will try coin special issue related to the topic of our journal. Once again I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of IPBMR, the office bearers for their support.
