

## Seeking the Modernization in Food science and Nutrition

**Norhashila Hashim**

University Putra Malaysia, Malaysia

Food & Nutrition Conference welcomes all the speakers, delegates, moderators, enthusiastic researchers and exhibitors from all around the sphere to join the "27th International Conference on Food & Nutrition " scheduled on July 26-27, 2021 at Amsterdam, Netherlands. The primary topic of the conference is "Unlock your potential with a worthy knowledge on food & Nutrition".

The key of Food & Nutrition 2021 is to share and converse their research and critical analyses and converse about the latest research and novelties in the arena of Nutritional science, Immunology & Food Allergies, Food Toxicology, Food Engineering & Technology, Human Nutrition, Foodomics & Nutrigenomics, Food additives which embraces keynote presentations, Oral talks, Poster presentations and Exhibitions. This conference is a global stage for professors, deans, academic researchers, Industrialists, Nutritionist, Dieticians, Doctors, Young Scientists, Students, Delegates, Health professionals in nutritionist and talented understudy gatherings from universities and research labs giving an ultimate space to share the latest progressions in the turfs of food science, nutrition and health to participate at Food & Nutrition conference.

### Objective

- Creating a specialized network.
- Making contacts to offer a means for scientific and industrial exchanges.
- Boosting scientific research with other scientific professionals in the country and throughout the world. Establishment the network between the university and other related industries.
- Summarize the studies of Food and Nutrition Science
- Discouraging the latest findings and accomplishments in Food Science & Technology and Nutrition Science.

### Target Audience

- Food technologist
- Microbiologist
- Food safety officers
- Nutritionists
- Public Health professionals
- Dietician
- Quality control officers
- Quality assurance officers
- Scientists
- Product Recall and Development Specialists
- Researchers
- Biotechnologists
- Industrialists
- Food Engineers

Food Safety. It also provides the premier multidisciplinary forum for researchers, professors and educators to present and discuss the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the field of Food Safety. The conference program will cover a wide variety of topics relevant to Food Science, including: Food Safety, Food Laws and Regulations, different technologies in the Food Industry, Food Toxicology, Food Safety and so on.

### Why to attend:

Our point is to the corporate network and to make a stage for the trading of data on innovative advancements, new logical modernization and the viability of different administrative projects towards Food Safety Meet 2021. The use of Molecular Approaches in all parts of the cutting edge Food Science and Health field. This meeting likewise centres around a wide assortment of momentum looking into sanitation and wellbeing that have both useful and pernicious impacts on the security and nature of nourishments, and are along these lines a worry of general wellbeing.

This is the best chance to interface with members from the Food Safety, Health affiliations and Food Biotechnology, Associations, Food Safety Societies, and Food Science Academicians. It mostly worries on the advanced effect and innovations in Food Safety and other significant to Food Sciences, just as for commencement of new evaluations and advances and the adequacy of different administrative projects on Food Chemistry towards Food Safety Meet 2021 behaviours introductions, share information, meet with present potential and prominent researchers, and get name acknowledgment at this two days occasion.

### Importance & Scope:

The field of Food Science has not just helped the advancement in various fields in science and innovation yet in addition contributed towards the improvement of the nature of human life all things considered. This has gotten conceivable with the various revelations and innovations prompting the advancement of different applications. The centre point of the Food Safety Summit 2021 gathering is to give a chance to the agents to meet, cooperate and trade new thoughts in the different territories of Food Technology. This International Food Regulatory gathering will include widely acclaimed keynote speakers, all-hands meetings, youthful research discussion, notice introductions, specialized workshops and profession direction sessions.
