On behalf of the Board of the Journal of Nephrology and Urology (IPJNU) and co-editors, I am glad to present the Volume 4, Issue 1 of the journal. The journal established in 2017 has now published 5 issues. The journal is now going indexed in Open Access Journals and different academic forums. Probability of downloading the papers are increasing high and the average is 30 downloads per paper. All these are signs for growth of the Journal. We have reached this stage by support of our Editorial Board Members, Contributors, Reviewers and readers. One of the main objective sources of this journal is to encourage manuscripts from different streams of research. that helps to enrich further the discourse. Readers can particularly notice progress made in this direction through the Book Reviews which is emerging as an important section of this journal. We would like to take this opportunity to thank each and every authors for their contribution and making our journal in international standards. Now we are enlarging our editorial board for addressing the gaps, issues and further enriching this journal. We would like to tell that maximum number of the received articles got accepted and published well, remaining are got rejected due to more plagiarism report. Journal is showing immense respect towards their Editors and Reviewers. Some of the well professionals throughout the globe were monitoring as Editorial Board Members for our journal. All of our reviewers are having the best reputation in scientific community.

It is having huge number of readers and repeated authors, by keeping complete trust on our Journal. We are doing fast track processing for the received article and they are going to publish

in less than 15 days after the acceptance. The print issues were also brought out and dispatched in 30 days of publishing the issue online. IPJNU is on Twitter, LinkedIn it using social media to reach more authors, researchers to know about work efficiency of Journal. IPJNU publishing articles with proper format to make them as readers friendly and using digital marketing to publish their articles in prestigious publisher "I Med Publications" for best appreciation to the corresponding authors. Now-a-days digital marketing is growing high. So the Journal is taking this opportunity is to attract more visitors and to reach maximum number of workers who are in scientific community. We do scholarly science publishing in exploring research in the major scientific fields on open access platform. Journal of Nephrology and Urology is an Open Access peer-reviewed publication that focuses on current research in diagnosis and management of kidney disorders as well as related pathophysiology, molecular genetics and epidemiology. We encourage the scholarly scientific community to share their recent research outcome to aid information and knowledge dissemination globally.

We always encourage the publication of qualitative research works and happy assist our authors. We are showing gratitude to the advisory and editorial board of IPJNU for their unsparing support to bring out the Volume 4, Issue 1. For its upcoming volume of IPJNU would like to offer some more attributes for the Volume 4 in 2020. With kind support of authors, editors and reviewers work we will go further with more issues per year with comparable to 2019. Assistance from Editorial board team and contributors we will try to place special issue in discipline of our journal.
