

## Young Research Forum - Mass Spectrometry 2020

### Indu Thakur

Professor, Department: School of Environmental Science, Jawaharlal Nehru University, India, E-mail: [isthakur@mail.jnu.ac.in](mailto:isthakur@mail.jnu.ac.in)

With the successful crowning glory of previous convention, and we are getting a large reaction from the speakers attendees and that we fortuitously announce that, we are organizing a convention on “[International Conference and Exhibition on Spectroscopy and Analytical Techniques](#)” was held on October 17-18, 2019 in the maximum lovely city of Bangkok, Thailand focusing with the subject matter of: ‘Advancements and Scope of Spectroscopy in Modern Chemistry’.

Main highlights of the convention: New approaches in Mass Spectroscopy, Infrared Spectroscopy, Raman Spectroscopy, UV Spectroscopy, Time-Resolved (TR) Spectroscopy, X-Ray Spectroscopy, NMR Spectroscopy, EPR Spectroscopy, Terahertz Spectroscopy, Chromatography, Luminescence Spectroscopy, Separation Techniques, Applications of High resolution Mass Spectrometry (HPLC), Mass spectrometry in Medicinal chemistry, Spectroscopy tools in Nanotechnology Mass spectrometry in Medicinal chemistry, Spectroscopy tools in Nanotechnology, Analytical Chemistry In Veterinary Drug Analysis, Trends in Analytical Instrumentation and Equipment's, Computed Tomography, Mass Spectrometry Detectors and many more

[Mass Spectrometry](#) will awareness on many interesting clinical sessions and covers all frontier subjects in polymers which consist of Basic Principles in Analytical Chemistry, Applications of Secondary Ion Mass Spectrometry (SIMS) in Materials Science, Tandem Mass Spectrometry and plenty of extra from throughout the globe, it held with the discussions on Mass Spectrometry. It is also a tremendous platform for researchers, practitioners and educators to give and talk the maximum latest advances, trends, and worries as nicely as realistic challenges and answers adopted inside the fields of current research and packages of mass spectrometry. “[4th International Conference on Mass Spectrometry](#)” to be held in the course of October 12-13, 2020 at Milan, Italy offers activate keynote displays, Oral talks, Poster displays and Exhibitions, Sponsorships. Attributing to the laws and rules on this region,

The [Young Researcher Award](#) is an initiative with the purpose of helping young researchers. This award spotting for Masters Ph.Ds. Post diploma thesis work presentation that will gift their tasks and thesis that has

been applied to improve long term excellence in the area of Polymers & Bio-Polymers. The selection Process can be completed by way of the Organizing Committee.

It is mainly designed for postgraduate students (MSc, PhD...) designed to offer college students with the possibility to provide their paintings in a friendly, supportive forum and to receive comments from mentors and peers.

Other critical skills: you need to be a terrific scientist includes scepticism, creativity, problem-solving, self-management, and objectivity.

### Benefits:

#### Best Young Scientist Award

- Best Masters/Ph.D./Postdoc
- Learn extra approximately career improvement & latest research equipment and technologies.
- Foundation for collaboration among younger researchers scientists
- To interact and share thoughts with all of the eminent personalities
- Student fellowships
- Felicitated with Certificate
- Chance to attend different Allied meetings with discounted rates.
- Chance to fulfil professionals in your area of expertise
- Chance to distribute full duration papers in our helping Journals

### Importance:

To recognises the essential importance of clinical studies inside the development of our know-how of the boom of forests and their value to society and our planet.

### Rules of Eligibility

- Entrants must have been finished their PhD MSc.
- The research described in the entrant's thesis must be inside the discipline of Polymers Biopolymers.
- The prize will be awarded without connection with sex, race, or nationality.
- The topic should suites to the conference subject
- All displays ought to be in English
- Updated Curriculum Vitae
- Submit an abstract as first author
- The candidate have to deliver an challenge that the paper being submitted has no longer been published in any journal or presented inside the different Conference / Seminar / Symposium or submitted for consideration of any award.
- Young Scientist can gift best one paper in any session

The Young Research Forum gives for all younger researchers and scientists and students for opportunity to fulfil and discuss about their own studies subjects and methodologies to proportion and expand their ideas, study from each other and gain information from eminent speakers. Role of Young Scientist:

Young scientists will play a vital role in today's research and improvements systems. Understanding how younger researchers can gain and contribute to the understanding landscape, and what limitations they encounter within the procedure throughout the globe.

Participation inside the symposium is open to all graduate college students who are graduates in field of Polymer Science from licensed universities. Applicants need to be latest graduated students.

Our Conference Series categories are seeking for to well-known Scientists, Researcher, Professor, Industrialists, and Students in diverse scientific fields who are making an exceptional contribution to the arena of Science for the higher and healthful future.

It could be an exposure to the young and enthusiastic researchers to explore the main edge studies and technology inside the interdisciplinary approach. YRF will

additionally give them and possibility to bolster their studies additionally as instructional community with other professionals each in their middle and interdisciplinary areas.

### The utility package has to encompass:

- Updated Curriculum Vitae
- Course completion certificate
- Paper paintings for presentation

### Note:

Last date for initial participation January 31-\$399

Last date for initial participation February 29-\$499

Last date for initial participation March 31-\$599

Last date for preliminary participation April 30-\$699

For more details about the convention please visit our website: [Mass Spectrometry 2020](#)

The conference also affords delegates/Listener opportunity to proportion and discover thoughts and views inside the location of Polymer Science. And avail group discounts on registration.

The Sponsor & Exhibitor in the Conference will get chance to expose themselves to new clients, customer, business, brand awareness and media exposure. Our sponsorship has categorized with Premium Sponsorship Packages: Elite Sponsor, Silver Sponsor, Gold Sponsor, Exhibition, Media Partner, Collaborator, Additional Sponsorship Packages and Advertisements.
