

Editorial Note

10th World Congress on Chromatography

April 16-17, 2020 Webinar

Editorial Note

We had a huge success with the completion of **10th World Congress on Chromatography Webinar** April 16 -17, 2020. The significance of the meeting was achieved due to the accumulation of all the related group of spectators of research scientists to share their Knowledge, Research work, Technologies, and furthermore trade of worldwide Information towards the correct crowd at ideal time. Congress has received a generous response from all over the world. This has been organized with the aim of endorsing the development of new perceptions and ideas for investigating the high level of knowledge reached by scientific community in the field of Chemistry.

The conference was organized around the theme "*COVID-19 outbreak: chemistry plays key role to fight against COVID- 19*". The congress entrenched a firm relation of future strategies in the field of Chromatography.

We would like to thank all the participants and following keynote speakers:

- Maria Perla Colombini, University of Pisa, Italy
- Marta Pastor-Belda, Department of Analytical Chemistry, University of Murcia, Spain
- Krylov V. A., N. I. Lobachevsky Nizhny Novgorod State University, Russia
- Berkant KAYAN, Aksaray University, Arts and Sciences Faculty, Aksaray, Turkey
- Aneta Sawikowska, Department of Mathematical and Statistical Methods, University of Life Sciences, Poznan, Poland

We would like to thank each and every participant of Chromatography 2020 webinar to make this a huge success. And special thanks to media partners for the promotion of our event.

The **ConferenceSeries** Chromatography Conferences aim to bring together the prominent researchers academic scientists, and research scholars to exchange and share their experiences on all aspects of Analytical Research. It is conjointly a knowledge domain platform for researchers, practitioners and educators to gift and discuss the foremost recent advances, trends, and issues in addition as sensible challenges and solutions adopted in the fields of analytical techniques.
