

Effects of Far-Infrared & Terahertz Onnetsu Thermotherapy on Various Cancers, Rheumatoid Arthritis and other diseases

Dr. Kazuko Tatsumura

Director, Gaia Holistic Health USA and Japan

Abstract:

Introduction: Onnetsu means comfortable heat. Onnetsu Thermotherapy invented by Dr. Kazuko Tatsumura emits from a special proprietary ceramic; 1) Heat 2) Precise 8-10 μ of vibration of way Infrared SunRay and 3) Vibration of THz.

Dr. Tatsumura is that the initial within the world to include THz minerals to medical use from active volcanos stones from Japan. A worldwide patent is unfinished.

Methods: When Onnetsuki is slid over the skin, healthy areas are comfortable, but IF deep tissue is unhealthy or cold, degenerated, the patient feels this spot to be 'hot'. At the point when this 'problem area' is adequately treated with Onnetsu treatment (Far-Infrared and THz vibrations, and Heat), the ongoing sensation dies down and along these lines, the sickness Conditions improve through vibratory water atoms of our profound tissue. Subsequently, Onnetsu treatment is each analytic and restorative.

Dr. Kazuko's Onnetsu Thermotherapy depends on four recorded and logical realities.

1. Traditional Japanese Concept of the centrality of Body Temperature. Hippocrates additionally has left statements on Heat.
2. NASA's finding regarding Far-Infrared vibration from Sunlight precise 8-10 μ . Also, added is the specific Terahertz vibration of earth minerals from volcanos stones from the depth of our planet earth.
3. Immunology by Dr. Toru Abo, balancing the autonomic nervous system to improve the condition of white cells; Raising Immunity.
4. Promoting four flows of Energy throughout our body by using the acupuncture meridian technique.

Result: A few nations (Peru, Cuba and Mexico) are rehearsing it in the medical clinics and facilities. Clinical trials have shown improvements in many diseases: such as asthma, brain, ear & eye problems, cancers, diabetes, rheumatoid arthritis, tuberculosis, and various pain conditions. Clinical examinations from Cuba and Peru will be introduced.

Conclusion: Onnetsu Thermotherapy is a new, easy & non-invasive treatment modality to treat difficult chronic medical conditions. The therapy uses Universal Vibrations, Heat, Light, Autonomic Nervous System Balance, and Acupuncture Meridian System.
