University of Texas, USA

### Neurology Congress 2021

Following the success of the previous meetings of the 1st & 2nd International Conferences on Neuroscience and Neurological Disorders, we are honored to invite you to the “3rd Global Conference on Neuroscience, Psychiatry and Neurological Disorders” which will be held, in Rome, Italy, February 24-25, 2021

The Neurology Congress 2021 will be a progressive, compelling and informative conference. The meeting will continue to serve as a distinct platform, where the most compelling and controversial topics facing clinicians in the field are presented in a fascinating and engaging debate forum.

The congress promotes excellence through dynamic deliberation and leading-edge presentations by international experts. Aiming to integrate the sharing of expansive information with optimal implementation in clinical care, this state-of-the-art congress is unique in its focus on resolving controversies important to Neuroscience and Neurological disorders

Neurology Congress 2021 aims to gather researchers, principal investigators, experts, and researchers working under academia and health care industry, business delegates, scientists and students across the globe to provide an international forum for the dissemination of original research results, new ideas, and practical development experiences. We hope that you will grasp this academic occasion to revitalize the enduring connections and flash with new peers around the globe.

### Why to Attend?

Neurology Congress 2021 will be operated by world-class experts in the field of Neurology and Neuroscience. International symposiums, B2B meetings, and workshops will also be organized to discuss the specific topics in the field of Neurology like Pediatric Neurology, Dementia, Neurological Diseases, Brain Disorders and Pathophysiology Traumatic Brain Injury, Neuro Oncology and CNS, Neuroscience and Artificial intelligence and many more. The main aim of Neurology Congress 2021 is to promote awareness and enhance research aimed at developing solutions for the various Neuroscience challenges encountered in the recent era.

Apart from collaboration we will also provide you with an opportunity to interact and learn from our Business partners, Exhibitors and Sponsors who were esteemed in the field of Healthcare. This would also offers a chance to speak with them personally and evaluate if they could be helpful for your networking practices. You can also learn from each other during Networking Breaks.

### Target Audience

- Neurologists
- Neuroscientists
- Psychiatrists
- Neuropsychologists
- Neuroscience Institutions
- Educational institutions
- Clinical organizations
- Geriatric Psychiatrists
- Geriatricians
- Young researchers
- Students
- Researchers in the field of Neurology
- Clinical Neurologist
- Speech Therapists
- Physical therapists
- Nurses
- Health organizations
- Pharmaceutical companies and industries
- Business delegates
- Social Workers
- All those providing care and treatment to patients with Neurological Disorders
