

Kidney Meet 2020 Conference will be scheduled during Apr 27-28, 2020 at Dubai, UAE

Bratescu Lavinia-Oltita

Consultant in Nephrology, Diaverum Morarilor Nephrology and Dialysis Medical Centre, Bucharest, Romania 2A Șoseaua Morarilor, District1, Bucharest, Romania. Tel: +40-721242126; +40-21-2554212, E-mail: lavinia_bratescu@yahoo.com

Nephrology is professed to have the acclaim of prescription stressed over kidney physiology, kidney illness, the treatment of kidney issues and renal substitution treatment. Central conditions that impact the kidneys (for instance diabetes and invulnerable framework illness) and basic gives that happen due to kidney issues (for instance metabolic bone disease and hypertension). Renal medicine is usually provided through large renal units that operate under hospitals including both university teaching hospitals and district general facilities. Thousands of patients from around the globe suffer from health disorders that fall under general nephrology; many of them face the risk of the disorder developing into end-stage kidney disease that requires transplantation. The transition from renal therapy to transplantation is monitored through close contact between the patient and renal specialist.

The Kidney Meet 2019 aimed to Recent advancements and future prospects in Nephrology which was scheduled on **May 28-29, 2019 at Istanbul, Turkey.**
