Conference Subject Advantages

This conference aims to promote continuous medical education and encourage a nourishing exchange of facts and ideas in how to deal with the disorders involving patients. Following this conference, the participant should be able to develop an approach to the patient with metabolic disorders to arrive at a cost-effective diagnosis; apply a treatment plan that considers lifestyles, medications and specialty referral or monitoring needs; identify patients likely to develop complications and determine the long-term needs as well as resource management. This activity is expected to result in improved competence in making an appropriate diagnosis and providing effective treatment and referral or follow-up care with the overall goal of improving patient outcomes.

Major challenges:

- Visa Issues
- Climate Conditions
- Financial Constrains
- Travel Issues
